

COMPANY PROFILE

We Create Beauty

Cosmetics Skin Care Perfume

About us

Del Monaco is an Italian brand that is registrar by FORMAT IMPRESA s.r.l specialized in the production cosmetic, fragrance and make up.

The "cosmetic, make up and fragrance" departments have paved the way to high quality products, the result of constant research and investment in innovation and the skills and experience of our staff.

Del Monaco represents at best, the ability and know-how in the skincare sector, where Italian produces of skin care creams are known, recognized and appreciated worldwide.

Del Monaco meets the requirements of a host of diverse customers, leading brands of Italian and International cosmetic production. Their "full service" organization guarantees the customer a clear view of the project at every stage, from the analysis of market trends, the design of the formula, the selection of raw materials, to the final product and then onto its packaging.

The microbiology laboratory is the heart of the company, offering quality assurance for the raw materials and for the finished product. Del Monaco is a company that takes full account of the principle of sustainability and marks it as a guide of their work, both in production processes, and in particular, the expertise in the creation of certified products. Del Monaco has a production line that can embellish the prestigious Nature certification.

PASSION AND TRADITION

United Nations
Educational, Scientific and
Cultural Organization

PESARO
City of Music

- Designated
- UNESCO Creative City
- in 2017
-

Del Monaco is located in Pesaro

Pesaro (Italian pronunciation: [ˈpeːzaro]) is a city and *comune* in the Italian region of Marche, capital of the Province of Pesaro e Urbino, on the Adriatic Sea. According to the 2011 census, its population was 95,011, making it the second most populous city in the Marche, after Ancona. Pesaro was dubbed "Cycling City" (*Città della Bicicletta*) by Italian environmentalist association Legambiente in recognition of its extensive network of bicycle paths and promotion of cycling. It is also known as "*City of Music*" as it is the birthplace of the composer Gioacchino Rossini. In 2015 the Italian Government applied for Pesaro to be declared a "Creative City" in UNESCO's World Heritage sites. In 2017 Pesaro received the European City of Sport award together with Aosta, Cagliari and Vicenza

Vision

Through research our goal is to achieve the perfect balance between technology and nature, obtaining self-preserving cosmetics based on substances of natural origins.

Values

We believe that a company is made up first and foremost of people who make it their own on a daily basis with passion, commitment, professionalism and skill. The organization is a young, close knit and stable group which grows year after year with new professional figures.

if we achieved this level today it is thanks in part to all of the employees who allow us to provide our customers with quality service.

Certifications

We have chosen to comply with the strictest certification regulations in order to offer our customers greater peace of mind and a wider range of possibilities.

ISO 9001 Certification is applied to all company processes, both in the design and realization phases and it guarantees compliance with standard protocols established for each activity in order to reduce the possibility of error to a minimum and to streamline processes as much as possible.

we have been **ECOCERT** certified, obtained **IQI certification**, now. **IQI** - (International Quality Institute) - which requires compliance with specific and extremely strict parameters in selecting raw materials, the reduction/recyclability/eco-compatibility of the packaging and the use of exhaustive and easy to read labels.

Plant extracts are at the base of eco-biological functional cosmetics where "eco" means that the raw materials are processed in the least invasive way possible in order to preserve the functional characteristics and that the finished product does not contain any substances of synthetic origins such as petrolatum's, paraffin's, silicones, aggressive surfactants (for example SLES and SLS), parabens or other low Dermo - compatible derivatives.

A certified Bio Ecological cosmetic product is therefore obtained:

- With raw materials or active ingredients of a plant origin permitted by the various disciplines for Bio Ecological cosmetics
- Using certified agricultural and organic products with a certificate number attributed to each product
- Without the use of synthetic coloring
- Without the use of ionizing radiation
- Without the use of raw materials derived from GMO (Genetically Modified Organisms)
- Without testing on animals
- Subjecting both the individual components and the finished product to regular microbiological checks
- Using containers made with recyclable material for packaging

We were UNI **EN ISO 22716** certified. In other words, we comply with the guidelines (GMP - Good Manufacturing Practices) required by Reg. 1223/2009, control, storage and shipping of cosmetic products. By so doing we guarantee the best safety standards for the consumer and we adopt standardized management of the human, technical and administrative factors involved in the production process.

The Halal certification gives the Muslim woman the opportunity to follow a beauty routine that conforms to its values, fully enjoying the craftsmanship, class and elegance that distinguishes luxury products made in Italy. The innovation of Del Monaco one of the Italian collection of skin care formulas certified by Halal.

Now Because of the regulation in CIS countries we have GOST-R certificate, it's a new gate to expand our market.

But this road never finishes and we will adopt ourselves according standard of our market place.

WHAT WE DO

Contract production

We make personalized cosmetics products for third parties. We currently have more than 3000 formulas that we have developed against requests from our partners who are active in the national and European market.

In our laboratories we produce:

- Cosmetics (face creams, body creams, detergents, tonics, micellar water, serums, shampoos, conditioners, scrubs, deodorants, bubble baths, shower gel, scrubs, etc.)
- Alcoholic based cosmetics (eau de toilette, perfumes, lotions, etc.)
- Oils (hydrating, massage, essential oil mixes, etc.)
- Makeup

We are equipped to package:

- Tubes (PE and AL)
- Bottles
- Vases
- Airless with pressure dispenser
- Ring nut sprayer
- Dispenser
- Glass ampoule

Filling & Packaging

The entire packaging area is climate controlled with tiled floor and walls and furnished with steel counters.

The equipment we have includes:

- semi-automatic fillers for both liquids and viscous liquids
- automatic hot air tube closers for PE and AL tubes with effective production of 1,200 tubes per hour
- manual closer for aluminum tubes
- inkjet markers arranged on as many semi-automatic lines
- automatic labeler for both circular and front/back sections
- manual labeler for circular sections
- automatic formatting/coding machine for cardboard cases
- manual punching machine for batch number
- heat shrinking machines

Storage

We have three different warehouses for raw material storage:

- one is for BIO certified raw materials and particular active ingredients
- one is for alcohol-based and flammable substances
- one is for generic raw materials.

A specific area is set up for packaging, as well as for the finished product.

All of our warehouses are climate controlled and the temperatures are constantly monitored.

R&D Department

The **Research and Development** department is the beating heart of Del Monaco: we cooperate with top level national and European institutions.

QUALITY CONTROL
